PRODUCT GRADES

Grade	Standard	Application
MR	IS:303	Dry Interior Applications
BWR	IS:303	Kitchens & Semi-Wet Areas
BWP	IS:303	Wet Areas & Exterior Applications
Marine	IS:710	Marine & Heavy-Duty Applications
FR	IS:5509	Areas Requiring Fire Safety & Protection

STANDARD SHEET SIZES

Dimensions	Metric
8 × 4 ft	2440 × 1220 mm
7 × 4 ft	2135 × 1220 mm
6 × 4 ft	1830 × 1220 mm

AVAILABLE THICKNESS

4 mm	6 mm	9 mm	12 mm	16 mm	19 mm	25 mm
------	------	------	-------	-------	-------	-------

ENGINEERED PERFORMANCE

DENSITY
700 ± 20 kg/m³

BENDING STRENGTH
70–80 MPa

MODULUS OF ELASTICITY (MOE)
8500–10,000 MPa

SCREW HOLDING (EDGE)
1600–1750 N

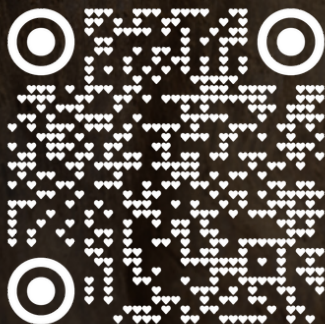

BUILT BEYOND GENERATIONS

At Lennor, quality is engineered into every board. Lifetime Guarantee Plywood is manufactured at our fully integrated facility in Hassan, Karnataka, where every stage of production is controlled under one roof. This allows us to maintain consistent quality, tighter process control, and uncompromising standards from start to finish. Every board is manufactured to meet IS:303 and IS:710 standards, delivering strength, stability, and long-term performance you can rely on.

The process matters.

Each Lennor board goes through 17 carefully controlled manufacturing stages—from selecting premium hardwood and building a gap-free core to precision pressing, ACC treatment, and comprehensive in-house laboratory testing. Every step is designed to improve structural integrity, durability, and consistency. Nothing is left to chance. Because lasting quality is the result of disciplined manufacturing, not claims.
